NIJIYA T U

FULL STACK WEB DEVELOPER

Thrissur, Kerala,India • +919645858187 • nijiya006@gmail.com
Portfolio: **nijiya-portfolio.netlify.app** • LinkedIn: **linkedin.com/in/nijiya-tu-476999359** • GitHub: **github.com/Nijiya007**

PROFESSIONAL SUMMARY

Results-driven **Full Stack Web Developer** with proven expertise in designing, engineering, and deploying high-availability web applications and RESTful backend microservices. Expertise across **Python, Django, React.js, WordPress, and MySQL**. Highly adept at optimizing database query latency, implementing management workflows, and delivering high-converting, mobile-responsive user interfaces in fast- paced Agile environments.

CORE TECHNICAL SKILLS

Languages & Web: Python, JavaScript (ES6+), HTML5, CSS3, SQL (MySQL). 0

Frameworks & Libraries: Django, Django REST Framework (DRF), React.js, Bootstrap,pCSS, WordPress, Elementor.

Architecture & Backend: RESTful API Design, Relational Database Modeling, Git.

Developer Tools & Systems: GitHub, Linux, VS Code, Postman, Netlify, PythonAnywhere

PROFESSIONAL EXPERIENCE

Velvetek Systems **Jan 2024 – May 2025**

Full Stack Web Developer *Thrissur, Kerala, India*

• Architected and delivered end-to-end full-stack applications using **Python, Django, React.js, and MySQL**, elevating system availability and user engagement across core client projects.

- Engineered secure, stateless **RESTful APIs** with seamlessly connecting front-end React clients to Django back-end infrastructure.
- Constructed dynamic, mobile-first UI components leveraging **React.js, and Tailwind CSS**, reducing page rendering times and driving a **25% boost in mobile user retention**.
- Refactored and indexed complex **MySQL database queries** and achieving a **35% reduction in database execution latency**. • Managed multi-developer version control workflows via **Git & GitHub**, introducing structured pull request guidelines and continuous integration deployments.
- Collaborated in UI/UX designers and project managers to convert business objectives into robust software architecture

FEATURED PROJECTS

Work Track Management System – Python, Django, MySQL **Live Demo: nijiya.pythonanywhere.com**

- Developed an enterprise task tracking platform enabling managers to assign work items, monitor technician schedules, and generate automated real-time operational reports.
- Implemented granular **Role-Based Access Control (RBAC)**, enforcing strict multi-tenant authorization rules across administrators and field service staff.

E-Commerce Web Application – React.js, JavaScript, Tailwind CSS **Live Demo: e-commerce-jade-gamma-7.netlify.app**

- Built a high-performance e-commerce platform featuring an interactive product catalog, custom filter parameters, and dynamic shopping cart state management.
- Optimized React component rendering patterns and image asset delivery to achieve sub-second client load times.

Restaurant Portal – HTML5, CSS3, JavaScript **Live Demo: yummyresturantstatic.netlify.app**

- Designed an intuitive restaurant web application featuring interactive digital menu offerings, dynamic reservation forms, and seamless responsive layouts.

EDUCATION & FORMAL TRAINING

Assabah Arts and Science College – Calicut University **2018 – 2021**

Bachelor of Science (B.Sc.) in Computer Science *Valayamkulam, Kerala, India*

Luminar Technolab **2022 – 2023**

Post-Graduate Diploma – Python Django Full Stack Development *Kochi, Kerala, India*

- Mastered advanced backend application architecture, relational schema optimization, REST API security, and modern frontend integration.
